

DKverse Source-Available Non-Commercial License

Version 1.0 - June 25, 2026

Draft for business discussion only. This document is not legal advice and should be reviewed by qualified counsel before use.

1. Purpose

This DKverse Source-Available Non-Commercial License is intended to allow public review, experimentation, learning, testing, non-commercial prototyping and community contributions, while reserving all commercial operation and monetization rights to the original creator unless a separate written commercial agreement is signed.

2. Definitions

"Licensed Work" means the DKverse software, documentation, architecture, designs, workflows, source code, repository materials and related files made available under this license.

"Licensor" means Rafael Minuti, unless the repository later identifies a legal entity as the licensor.

"You" or "Licensee" means any person or entity accessing, copying, modifying, testing, forking, running or using the Licensed Work.

"Commercial Use" means any use intended to generate revenue, business advantage, platform traffic, paid services, subscriptions, transaction fees, marketplace fees, advertising income, sponsorship income, app-store income, data monetization, enterprise use, resale, sublicensing, public SaaS operation, public marketplace operation, public web or mobile app operation, or other commercial benefit.

3. Non-Commercial Grant

Subject to this license, the Licensor grants You a limited, non-exclusive, non-transferable, revocable, worldwide, royalty-free license to access, view, fork, copy, modify and run the Licensed Work solely for non-commercial purposes, including personal study, technical evaluation, testing, local development, academic review, non-commercial prototypes and contributions to the repository.

4. No Commercial Rights

This license does not grant Commercial Use rights. You may not operate, launch, host, monetize, sell, license, sublicense, distribute as a commercial product, deploy as a public SaaS, deploy as a public marketplace, deploy as a public mobile application, or otherwise commercially exploit the Licensed Work or any substantial derivative of it without a separate written commercial agreement signed by the Licensor.

5. Commercial Adoption

Any Commercial Use of the Licensed Work requires a separate written commercial adoption agreement. The standard commercial terms may include a 10-year royalty on Adjusted Annual Net Operating Profit and an exit fee upon sale of the DKverse-based business, but no commercial rights arise unless the agreement is signed by the Licensor.

6. Trademarks and Brand Assets

This license does not grant any right to use DKverse, DKvault, DKmarket, DKarena, DKchat, related logos, trade names, domain names, visual identity, slogans, marks or brand assets for commercial purposes. Any brand use requires separate written authorization.

7. Contributions

By submitting a contribution, pull request, issue, suggestion, design, code, documentation or other material, You agree that the contribution is governed by the repository contribution terms and that the Licensor may use, modify, publish, sublicense and commercially exploit the contribution in connection with DKverse or related projects.

8. Operational Responsibility

Any person or entity that operates a product, platform, marketplace, app, SaaS, service or business based on the Licensed Work is solely responsible for all operations, users, transactions, payments, taxes, consumer protection, privacy/data protection, cybersecurity, marketplace rules, card authenticity, fraud prevention, regulatory compliance and disputes. The Licensor does not operate, control, manage, supervise or endorse any third-party implementation.

9. No Warranty

The Licensed Work is provided as-is and as-available, without warranty of any kind, whether express, implied, statutory or otherwise, including without limitation warranties of merchantability, fitness for a particular purpose, title, non-infringement, security, accuracy, availability, performance, error-free operation or compatibility.

10. Limitation of Liability

To the maximum extent permitted by applicable law, the Licensor shall not be liable for any direct, indirect, incidental, special, consequential, exemplary or punitive damages, lost profits, lost revenue, lost data, business interruption, security incident, user claim, tax claim, regulatory claim, consumer claim, payment dispute, fraud claim or other loss arising out of or relating to the Licensed Work or any third-party use or operation of it.

11. Indemnity

You agree to defend, indemnify and hold harmless the Licensor from and against any claims, liabilities, damages, losses, costs and expenses, including reasonable attorneys fees, arising out of or relating to Your use, modification, deployment, operation or commercialization of the Licensed Work, Your violation of this license, or Your violation of applicable law or third-party rights.

12. No Partnership or Agency

Nothing in this license creates any partnership, joint venture, employment, fiduciary, franchise, agency, management, advisory, control or representative relationship between You and the Licensor.

13. Termination

Any rights granted under this license automatically terminate if You breach this license. Upon termination, You must stop using the Licensed Work and delete or destroy unauthorized copies, except to the extent retention is required by law.

14. Reservation of Rights

All rights not expressly granted are reserved by the Licensor. Publication of the repository does not waive copyright, trademark, trade secret, contractual or other rights.
